Plan & Treatment Goals

Based on my evaluation of the patient's condition, I am ordering the following device(s) **L1852 KNEE ORTHOSIS (KO), SINGLE UPRIGHT, THIGH AND CALF, WITH ADJUSTABLE FLEXION AND EXTENSION JOINT (UNICENTRIC OR POLYCENTRIC), MEDIAL-LATERAL AND ROTATION CONTROL, WITH OR WITHOUT VARUS/VALGUS ADJUSTMENT, PREFABRICATED, OFF-THE-SHELF WHICH INCLUDES L2397 (ADDITION TO LOWER EXTREMITY ORTHOSIS, SUSPENSION SLEEVE)**, including fitting and adjustment if needed. The patient has been instructed to wear the device daily, as needed. The benefits of this device, which is an alternative, non-invasive method to potentially relieve pain, has been explained to the patient who is interested in this treatment. Based on my assessment, I have determined it is medically necessary and appropriate to prescribe treatment today. For the patient's complaint, I am prescribing this device. The patient will benefit by helping her address any of the following: give support to weak muscles, improve patient's pain, improve patient's function, increase performance in activities of daily living, improve ambulation, reduce medications, slow degeneration, provide stability, provide support. Reduce pain by restricting the mobility of the trunk; reduce the risk of medical problems escalating the patient's present condition, facilitate healing following an injury or surgical procedure to the spine or related soft tissues; To support weak spinal muscles and/or a deformed spine. If the patient's pain persists or worsens and/or there is an acute trauma or injury related to this pain, the patient agrees and understands to go to the Emergency Room or follow-up with their Primary Care Physician for further testing and imaging that may be immediately necessary.
